Warren, OH, USA | 330-937-8915 | [jonathon.ireland@gmail.com](mailto:jonathon.ireland@gmail.com) | [jonathonireland.com](http://jonathonireland.com)

## PROFESSIONAL OVERVIEW

---

Senior Software Engineer with 10+ years of software development experience, including 7+ years building scalable Angular applications (v7–21). Expertise in modern testing frameworks and CI/CD pipelines, driving increased test coverage, reduced production defects, and faster release cycles. Proven track record of modernizing legacy systems and improving frontend architecture, code quality, and system reliability.

## WORK EXPERIENCE

---

### Equifax (via Brooksource)

*Senior Software Engineer (Contract, Remote)*

*Louisville, KY · 2024 – Mar 2026*

- Delivered 225+ merged pull requests and 400+ commits across enterprise platforms (VINELink, VINEWatch, Edge Services), driving large-scale feature development and system improvements.
- Modified 1,200+ files and contributed ~160K lines of code, including major refactoring efforts that improved maintainability and reduced technical debt.
- Led VINEApps Angular modernization, upgrading enterprise applications from v15→18 and independently from v18→21.
- Expanded unit test coverage across 249+ spec files (~170 newly created), **adding 1,100+ new unit tests**, improving system reliability and reducing regression risk.
- Introduced new spec standards and refactored legacy tests, strengthening long-term code reliability.
- Reviewed and approved pull requests to enforce architectural standards and maintain code quality across distributed teams.
- Acted as a key contributor across frontend, backend, and deployment layers, including Node services and Kubernetes configurations

### DICK'S Sporting Goods

*Software Engineer (Remote)*

*Coraopolis, PA · 2018 - 2023*

- Built Angular and React components within AEM CMS using TypeScript, SCSS, and Angular Material, optimizing development workflows with Vite to enhance enterprise e-commerce performance and user experience.
- Delivered 94 Angular templates (~40% of CMS template library) supporting scalable, multi-brand digital platforms.
- Contributed to a shared component library within a monorepo, aligning Angular applications with a Tailwind-based design system to ensure UI consistency and long-term maintainability.
- Streamlined cross-team workflows, reducing data errors and eliminating redundant processes across development pipelines.
- Managed CI/CD pipelines using GitHub Actions, and PCF to support reliable, on-time deployments.
- Containerized local development using Docker, integrating 5 Node APIs with MySQL and Redis, and deploying services.
- Delivered high-impact contributions across codebases, totaling at least 1,606 commits, 463,212 lines of code added, and 221,077 lines removed, reflecting large-scale feature delivery, refactoring, and system modernization.

*Front End Developer (Hybrid)*

*Coraopolis, PA · 2017 - 2018*

•Developed responsive e-commerce pages using JavaScript, SCSS, and HTML5. Built and maintained Adobe Target tests for A/B experiments. Managed numerous static page content types for all brands owned by DSG Corporate.

### Kent State University

*Associate Application Developer*

*Kent, OH · 2015 - 2017*

- Modernized PHP/MySQL/Laravel app for Information Services and Blackboard platform.
- Migrated legacy Presenter app to Laravel + Vue.js, streamlining slideshow delivery for faculty and students.

### Covelli Enterprises

*Web Manager (MIS/IT)*

*Warren, OH · 2012 - 2015*

- Managed Covelli.com, DNS, hosting, and licensing for 250+ restaurant franchises (Panera, O'Charley's, Dairy Queen).
- Designed a custom digital signage system for 300+ Panera stores, replacing PowerPoint/PCAnywhere with a PHP/JS slideshow synced via MySQL replication. Deployed and maintained CENTOS Linux servers for security and performance improvements.

### Brain Host

*Front End Developer*

**2011 - 2012**

- Maintained WordPress/CodeIgniter sites, built custom templates.

**Carnegie Mellon University***Web Tech Assistant***2011 - 2011**

- Contracted for Blackboard support site updates.

**Vindy.com***Online Content Specialist***2007 - 2011**

- Frontend development (Django-based CMS), led 2 full redesigns.

**EDUCATION**

---

**Kent State University****2006***Bachelor of Science, Computer Networking***Kent State University****2004***Associate of Applied Business, Computer Technology***CORE SKILLS**

---

- Frontend Frameworks & Libraries:** Angular 7–21, React, Vue.js, Angular Material
- Frontend Languages & Markup:** JavaScript, TypeScript, HTML5, CSS/SCSS
- UI/UX & Design Tools:** Figma, Adobe Creative Suite, Adobe Target
- Testing & Quality Assurance:** Karma, Jasmine, Vitest, Unit Tests, Responsive Design
- Backend & Databases:** Node.js, Python, MySQL
- DevOps & Platforms:** GitHub Actions, Jenkins, Docker, CI/CD Pipelines, Azure, PCF, AWS, Cron Jobs, VS Code
